NIKAN TOOLS

Industrial Tools and Supply Overview

A concise overview of current product categories. Exact availability, technical specifications, minimum order quantity and delivery time are confirmed after inquiry.

Current Product Categories

Category	Typical scope	Inquiry information
Cutting & grinding	Diamond blades, cutting discs, grinding discs	Material, diameter, machine, quantity
Power tools	Cordless drills and workshop tools	Voltage, application, quantity
Safety equipment	Gloves and personal protection items	Standard, size, quantity
Industrial accessories	Cable ties, toolboxes and related supplies	Dimensions, material, quantity

Private Label and China Sourcing

Beyond the listed tools, Nikan Tools can review requests for spare parts, industrial items, retail accessories and custom products sourced from China. Private-label production may include customer branding, packaging and agreed specifications, subject to factory capability and order terms.

1. Requirement

Send a photo, link, drawing or technical description plus expected quantity.

2. Supplier review

Factories, pricing, minimum quantity and sample options are reviewed.

3. Approval

Quality, packaging, brand details, timing and commercial terms are confirmed.

4. Production and inspection

Production progress and agreed quality checkpoints are followed.

5. Shipping

The suitable shipping path is coordinated and tracked through delivery.

Important: this document is an overview, not a price list or availability guarantee. A final quotation is issued only after technical and commercial review.
